

PRESS RELEASE

KTSOWENSTHOMAS BRINGS 3D APPROACH BACK TO IDEAL BUSINESS

Returning to the Ideal Business Show after a successful debut last year is ktsowenstomas, one of Wales' leading accountancy, taxation and business advisory firms, who will be bringing their famous 3D approach to business to a screen near you!

The ktsowenstomas **three dimensional approach** is all about accountants going that much further to deliver **deeper thinking, connected vision** and **business acceleration**. What this means for clients is a firm of accountants who get under the skin of their business, helping them discover new and realistic opportunities for growth, and working with them to shape their vision, and realise their goals.

And at the Ideal Business Show this 3D approach will be represented on the **ktsowenstomas** stand through a 'walk through' treatment of the ktsowenstomas company logo. In addition, the company will be handing out entries to visitors for this year's ktsowenstomas competition to win a Nintendo Wii.

Ktsowenstomas Director Craig Blackmore will be running the company's presence at the Ideal Business Show, and said: "We're looking forward to returning to the Ideal Business Show, for what for us is the key commercial showcase of the year. We have been successfully using the *3D accountants* brand for some time, and it seemed the obvious medium for this year's show. I think we will make our presence felt, and create lot of interest in our stand, and let's hope we can then capitalise on this to get the maximum business benefits out of the event."

(kts at IBS/2)

With bases in both Cardiff Bay and a regional office that serves Rhondda Cynon Taf, the Heads of the Valleys and Mid Wales, ktsowenstomas has over 80 professionals delivering a customer-focused and results-driven service to both public and private sectors throughout Wales and beyond.

Clients range from government departments to multi-nationals, and from business start-ups to charities. Whatever the size or nature of the business, ktsowenstomas' accountants bring their experience and expertise to bear to offer the best possible advice and guidance, equipping customers to make the right decisions to take their business forward.

That's the ktsowenstomas 3D approach – it's worth a closer look at the Ideal Business Show!
